Parent / Teacher Guide

Reading and writing the fun way

Jolly Phonics is a thorough foundation for reading and writing. It uses the **synthetic phonics** method of teaching the letter sounds in a way that is fun and multi-sensory. Children learn how to use the letter sounds to read and write words.

This guide provides advice for parents and teachers. It explains the principles behind *Jolly Phonics* so that your understanding of the teaching, and your ability to help a child, is much greater.

All the material is suitable for use in school. Much of it is also well suited to use at home; those items have been marked with a * . The items can be used together, or individually.

Jolly Phonics includes learning the irregular or 'tricky words' such as *said*, *was* and *the*. Together with these materials you should also use storybooks.

Parental support is important to all children as they benefit from plenty of praise and encouragement whilst learning. You should be guided by the pace at which your child wants to go. If interest is being lost, leave the teaching for a while and then come back to it later. Not all children find it easy to learn and blend sounds. Extra practice will lead to fluency in reading and help your child manage at school.

The **five** basic skills for reading and writing are:

1. Learning the letter sounds
2. Learning letter formation
3. Blending
4. Identifying sounds in words
5. Spelling the tricky words

Although the skills are covered separately in this guide they will be taught together.

1. Learning the letter sounds

In *Jolly Phonics* the 42 main sounds of English are taught, not just the alphabet. The sounds are in seven groups. Some sounds are written with two letters, such as *ee* and *or*. These are called digraphs. *oo* and *th* can each make two different sounds, as in *book* and *moon*, *that* and *three*. To distinguish between these two sounds, the digraph is represented in two forms. This is shown below.

1. s, a, t, i, p, n
2. c k, e, h, r, m, d
3. g, o, u, l, f, b
4. ai, j, oa, ie, ee, or
5. z, w, ng, v, oo, oo
6. y, x, ch, sh, th, th
7. qu, ou, oi, ue, er, ar

Each sound has an action which helps children remember the letter(s) that represent it. As a child progresses you can point to the letters and see how quickly they can do the action and say the sound. One letter sound can be taught each day. As a child becomes more confident, the actions are no longer necessary. There is a list of all of the letter sounds and their corresponding actions on page 8 of this guide.

Children should learn each letter by its sound, not its name. For example, the letter *a* should be called *a* (as in *ant*) not *ai* (as in *aim*). Similarly, the letter *n* should be *nn* (as in *net*), not *en*. This will help in blending. The names of each letter can follow later.

The letters have not been introduced in alphabetical order. The first group (*s, a, t, i, p, n*) has been chosen because they make more simple three-letter words than any other six letters. The letters *b* and *d* are introduced in different groups to avoid confusion.

Sounds that have more than one way of being written are initially taught in one form only. For example, the sound *ai* (rain) is taught first, and then alternatives *a-e* (gate) and *ay* (day) follow later. Examples can be found in the *Jolly Phonics Word Book*.

2. Learning letter formation

It is very important that a child holds their pencil in the correct way.

The grip is the same for both left- and right-handed children.

The pencil should be held in the 'tripod' grip between the thumb and first two fingers. If a child's hold starts incorrectly, it is very difficult to correct later on.

A child needs to form each letter the correct way. The letter *c* is introduced in the early stages as this forms the basic shape of some other letters, such as *d*. Particular problems to look for are: the *o* (the pencil stroke must be anticlockwise, not clockwise), *d* (the pencil starts in the middle, not the top), there must be an initial downstroke on letters such as *m* and *n*.

The *Jolly Phonics DVD*, *Jolly Stories* and *Finger Phonics* books show the correct formation of each letter. A good guide is to remember that no letter starts on the baseline.

In time a child will need to learn joined-up (cursive) writing. It helps the fluency of writing and improves spelling. When words are written in one movement it is easier to remember the spelling correctly. *Jolly Phonics* uses the Sassoon Infant typeface which is designed for children learning to read and write. Many of the letters (such as *d* and *n*) have an 'exit' stroke at the end to make it easier to transfer into joined-up writing.

(Check your school's policy as many schools do not teach joined-up writing early on.)

3. Blending

Blending is the process of saying the individual sounds in a word and then running them together to make the word.

For example, sounding out *d-o-g* and making *dog*. It is a technique every child will need to learn, and it improves with practice. To start with, you should sound out the word and see if a child can hear it, giving the answer if necessary. Some children take longer than others to hear this. The sounds must be said quickly to hear the word. It is easier if the first sound is said slightly louder. Try little and often with words like *b-u-s*, *t-o-p*, *c-a-t* and *h-e-n*. There are lists of suitable words in *The Phonics Handbook* and the *Jolly Phonics Word Book*.

Remember that some sounds (digraphs) are represented by two letters, such as *sh*. Children should sound out the digraph (*sh*), not the individual letters (*s-h*). With practice they will be able to blend the digraph as one sound in a word. So, a word like *rain* should be sounded out *r-ai-n*, and *feet* as *f-ee-t*. This is difficult to begin with and takes practice. The *Jolly Phonics Regular Word Blending Cards* can be used in class to improve this skill.

You will find it helpful to be able to distinguish between a blend (such as *st*) and a digraph (such as *sh*). In a blend the two sounds, *s* and *t* can each be heard. In a digraph this is not so. Compare *mishap* (where both the *s* and *h* are sounded) and *midship* (which has the quite separate *sh* sound). When sounding out a blend, encourage children to say the two sounds as one unit, so *fl-a-g* not *f-l-a-g*. This will lead to greater fluency when reading.

Some words in English have an irregular spelling and cannot be read by blending, such as *said*, *was* and *one*.

Unfortunately, many of these are common words. The irregular parts have to be remembered. These are called the 'tricky words'.

4. Identifying sounds in words

The easiest way to know how to spell a word is to listen for the sounds in that word. Even with the tricky words an understanding of the letter sounds can help.

Start by having your child listen for the first sound in a word. Games like I-Spy are ideal for this. Next try listening for the end sounds, as the middle sound of a word is the hardest to hear.

Begin with simple three-letter words such as *cat* or *hot*. A good idea is to say a word and tap out the sounds. Three taps means three sounds. Say each sound as you tap. Take care with digraphs. The word *fish*, for example, has four letters but only three sounds, *f-i-sh*.

Rhyming games, poems and the *Jolly Songs* also help tune the ears to the sounds in words. Other games to play are:

a) Add a sound: what do I get if I add a *p* to the beginning of *ink*? Answer: *pink*. Other examples are *m-ice*, *b-us*, etc.

b) Take away a sound: what do I get if I take away *p* from *pink*? Answer: *ink*. Other examples as above, and *f-lap*, *s-lip*, *c-rib*, *d-rag*, *p-ant*, *m-end*, *s-top*, *b-end*, *s-t-rip*, etc.

5. Spelling the tricky words

There are different ways of learning tricky spellings:

1) Look, Cover, Write and Check. Look at the word to see which bit is tricky. Ask the child to try writing the word in the air saying the letters. Cover the word over and see if the child can write it correctly. Check to make sure.

2) Say it as it sounds. Say the word so each sound is heard. For example, the word *was* is said as 'wass', to rhyme with *mass*, the word *Monday* is said as 'M-on-day'.

3) Mnemonics. The initial letter of each word in a saying gives the correct spelling of a word. For example, *laugh* - Laugh At Ugly Goat's Hair.

4) Using joined-up (cursive) writing also improves spelling.

Storybooks

A child will benefit greatly from a love of reading for pleasure. This can come from being read to.

Once a child has begun to learn the letter sounds they will be able to pick them out in words. They should then move on to working out whole words through blending. As a result it is easier if reading begins with storybooks that use simple words. The *Jolly Readers* can be used to provide this progression.

Once there is fluency in reading, the most important skills for a child will be comprehension and the understanding of more words. This can be developed by asking a child questions about a story they have just read.

About *Jolly Phonics*

Jolly Phonics has been developed by Sue Lloyd and Sara Wernham, who were primary/elementary school teachers at Woods Loke Primary School in Lowestoft, England.

Independent studies find that, after one year's teaching, children taught with *Jolly Phonics* have an average reading age around 12 months ahead of their actual age. Their spelling age is usually slightly further ahead. Boys typically do as well as girls.

Jolly Phonics is multisensory and has been developed so the adult can use it confidently and easily, even at the end of an exhausting day!

Jolly Learning Ltd is an independent British publisher, founded in 1987.
